From duck blinds to drift boats, Orvis is rooted in traditions that connect us with the natural world and an insatiable drive to share our love of field and water—and the worlds they open for us. Leaders in product innovation from the start, our obsessively designed and enthusiastically tested gear is born from our passion and respect for the outdoors, the sports we love, and an unrelenting drive to stay curious and keep asking 'what if.' The result? A robust product line that blends proven classics with innovative tech to simply perform when and where you need it most. Over 165 years of making it happen, and we're just getting started.

ACCIAR ATE FROM ANYWHISRE

Surpassing all others as the industry's most accurate fly rods ever created, the Helios 3 series represents a fundamental shift in our design philosophy. Mandate 1: Put the ultimate premium on the ability to place your fly where the fish will be instead of where the fish was. Mandate 2: Never, ever sacrifice feel. The H3 series beautifully achieves both in a full-lineup with dual personalities. 3F is accuracy with finesse and the dry-fly angler's dream. 3D is accuracy with power at distances that border on the unfair. Each make a strong case that your time on the water is no longer just fishing. **This is hunting.**

Men's Product Line Strategy Manager Charley Perkins phoning in another very accurately placed long-distance call. Photo: Capt. David Mangum

A dry-fly angler's dream with the ability to drop an Adams in a teacup or put a Charlie on a tailing bonefish's nose at 40 feet.

With the power for pinpoint delivery of a streamer to a distant cut bank or the perfect lead in the wind to a cruising redfish at 60 plus feet.

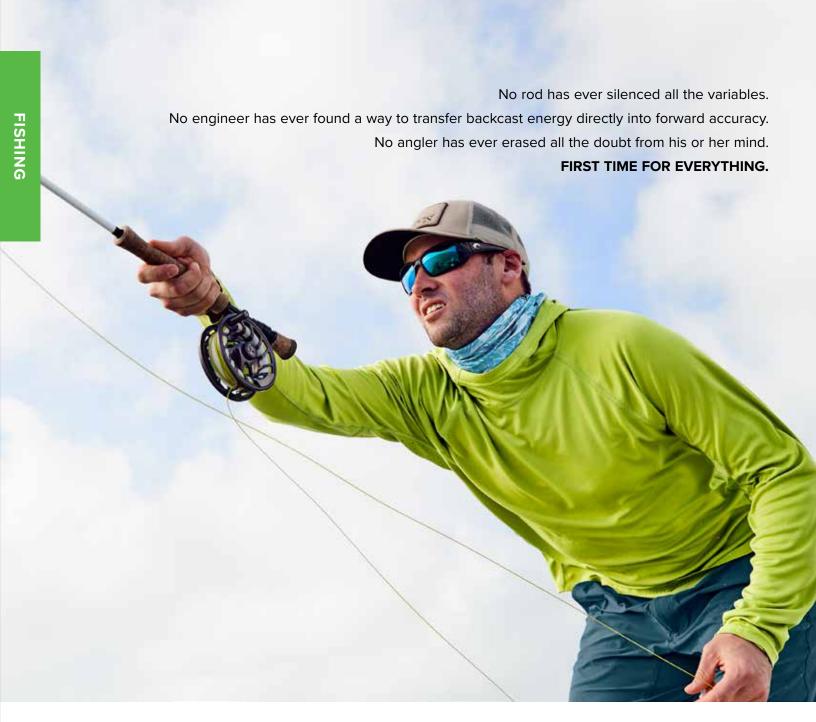

If you're an experienced angler who demands precision and accuracy, explore our Helios 3 line of fly rods.

We engineered the H3 to reduce the variables and harness the energy behind each cast—translating to impressive accuracy. No window is too small for this precise rod, thanks to the increased hoop strength that reduces vibration for a truly accurate cast. Place flies right where you want them—every time—with the enhanced power and pinpoint accuracy of our Helios 3 fly rods. Cast the Helios D3 if you're looking for reliably easy distance; it blends unmatched power with incredible accuracy. For tricky water, spooky fish, and tiny dries, rely on the finesse-focused Helios 3F, which will consistently present a fly at 60 feet, with a delicate presentation and surprising sensitivity. The Helios 3 offers power, accuracy, and feel, whether you're fishing a stream or the flats.

Premium bamboo fly rods have been hand built in the Orvis Rod Shop in Manchester, Vermont for more than 160 years. Orvis bamboo fly rods represent a last bastion of workbench craftsmanship created by a long, proud line of American craftsmen. They are made to be fished. When modern design philosophy meets a classic material, something incredible is bound to happen.

AMERICAN INGENUITY

GOES NEW-SCHOOL

Drive 45 minutes east from our Rod Shop in Manchester, Vermont and you'll now find a new, dedicated, beyond-state-of-the-art facility created through a partnership to build everything from our award-winning Mirage* and C.F.O.* reels to Orvis tools like pliers, nippers, and more. With an even greater capability to turn bulk aluminum barstock into exceptionally smooth, patented reels and functional gear, each piece of gear produced is designed, developed, machined, and anodized by true craftsmen and women here in America. Not only does a commitment this substantial contribute to the local economy and provide fantastic opportunities in a rural corner of our country, the partnership's allowed our team to let their minds conceptually wander and push innovations like our patented drag systems even further. In that regard, it's not just a turnkey manufacturing facility.

This place has become an idea factory.

THE SHOW STOPPINGS

Patented, sealed, maintenance-free disc drag system. Super-large arbor for increased retrieve rates. Machined in the USA from lightweight anodized aluminum barstock. Ergonomically designed handle. Left- to right-hand retrieve convertible. Fully radiused reel foot prevents kinked leaders. Low-profile counterweight won't catch fingers or fly lines. EMADE IN USA

MIRAGE

ORVIS MIRAGE / FLY REEL

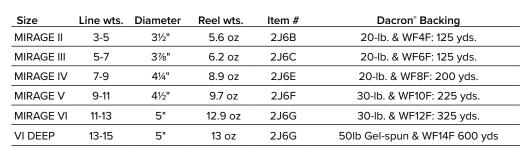

MIRAGE® REELS

American-made large arbor with sealed, maintenance-free carbon and stainless steel disc drag that goes from zero to full drag in a single knob rotation. Superlarge arbor for increased retrieve rates and reduction in line coil. Ergonomic machined aluminum handle.

Sizes II-VI

MADE IN USA

spool side in midnight black

ORVIS MIRAGE LT / FLY REEL

carbon

olive

MIRAGE® LT REELS

A lightweight evolution of the Mirage designed to balance perfectly with lighter freshwater rods. 30% lighter and narrower than the Mirage. Zero to full drag in a single drag knob rotation.

Sizes I-IV

ORVIS SSR / FLY REELS

SSR DISC SPEY REELS

Swing, step, repeat—our SSR Spey Reels are built with a machined barstock aluminum sealed drag system in three spey-specific sizes. Size III is ideal for 3-5 wt. trout spey rods (7.9 oz., 33/4" dia.), IV is for 6-8 wt. switch and spey rods (8.7 oz,. 4" dia.), and size V for 9-10 wt. full spey rods (9.2 oz., 41/4" dia.). Full cage frame is black with gray accents.

Imported.

ORVIS BATTENKILL / FLY REELS

BATTENKILL® DISC REELS

True to its heritage in looks and perfomance, but updated with the latest in design improvements. Mid-arbor design for faster line retrieve and less line coil. Sealed drag system based on the Hydros®. Spey sizes IV and V have a solid back frame and full cage spool.

Sizes I-V

Imported.

PRO UPLAND APPAREL

Lightweight, moisture-wicking, quickdry blends. UPF 50+ protection. Integrated odor control. Stretch and strategically placed gussets for unrestricted casting, rowing, and reaching for a cold one after an epic outing on the water. Our PRO Warm Weather apparel is more than just clothing for summer, it's a complete system.

Designed for blue-sky mornings that morph into gray, windswept days and frosty dawns that give way to sweltering, sunny afternoons, this all-encompassing collection assures comfort in all conditions. From lightweight layers that wick moisture, dry fast, stretch, move with you, and remain fresh all day thanks to built-in odor protection, to weatherproof and abrasion-resistant outer layers that keep you warm, dry, and protected from the elements.

Our Cold/Foul Weather System incorporates fabrics that breathe, wick moisture, dry fast, stretch, and remain fresh all day thanks to built-in odor protection. You'll find pieces with body-mapped insulation to keep heat where you need it and prevent wind and water from getting where you don't. And we've integrated abrasion-resistant fabrics to ensure you're protected every step of the way.

SYSTEMS FOR ANY SEASON

The epitome of function leading form, the Orvis PRO collection is a series of complete systems designed to meet the rigorous demands of weather, temperature, and terrain. Each individual PRO system features incredibly intuitive product design, married with the most-advanced fabrics and outsole technologies from partner brands like Polartec®, CORDURA®, PrimaLoft®, and more.

Technologically superior performance.

Durability has been part of this brand's DNA since the beginning. It's simple—products made with CORDURA fabrics are built to last.

PrimaLoft® technology is engineered to protect you from the elements, so you can focus on the activity at hand, empowering you to enjoy the outdoors.

A premium provider of sustainable textiles, the inventor of modern technical fleece, and a brand trusted for keeping users warm, dry, cool, or safe.

"The Orvis Pro HD Insulated Hoodie is my go-to jacket for subzero temperatures." —Outside Magazine

ALL-NEW BIBS ALL-NEW JACKET

SAME PHENOMENAL CORDURA® DURABILITY
AS OUR TRUSTED PRO WADERS

With three layers of waterproof, stretchy-so-you-can-actually-move CORDURA fabric, our new, ultra-technical PRO Bibs and Fishing Jacket stand as the season's must-have boat- and jetty-ready outfit for the type of folks not normally concerned with their outfit.

Oxbow Brewing's Tim Adams on the release while Capt. Ben Whalley scans for the next volunteer on a three-day Atlantic Coast marathon. Photo: Jay Riley

NAME DROP

Let 'em know who you are.

Throughout the book, this icon signifies an item is capable of accepting embroidery for custom shop or guide service personalization.

Fall 2023 Orvis Name Drop Custom Embroidery

- 1. Minimum embroidery orders are as follows:
 - **Shirts** 12 per style per image or logo; choose from any available colors. **Hats** 12 per style per image or logo; choose from any available colors.
- **2. Embroidery charge is \$3.00 per image per item** or garment, except there is no additional embroidery charge for hats—the charge is included in the hat prices on this order form. Embroidery charge may exceed \$3.00 for very large images or high stitch counts. An extra \$1.50 will be charged for the addition of any version of the "Orvis Endorsed" logo.
- 3. The embroidery program offers 3 ways to customize items:
 - a) Use a "stock" image and "drop in" your shop or lodge name, or
 - **b)** Submit an already digitized file of your logo or image. Digitized artwork may be emailed to **dealerspecialistrke@orvis.com**, or
 - c) Submit your logo or image artwork file and Orvis will provide a digitized version from which embroidery can be created. A one-time digitization fee will apply. Artwork to be digitized may be emailed to dealerspecialistrke@orvis.com. Artwork should be vector high-resolution artwork: .AI, .EPS, .SVG, or .PDF
- 4. Allow 3 weeks for delivery. For newly digitized files, allow 3 weeks after final approval of digitization for delivery.
- 5. Changes to preseason embroidery orders must be made 6 weeks in advance of scheduled ship date.
- 6. Actual freight costs are charged to ship embroidery orders.

Embroidery orders may be emailed to dealerspecialistrke@orvis.com

APPAREL FIT GUIDE

/ TOPS, JACKETS & OUTERWEAR

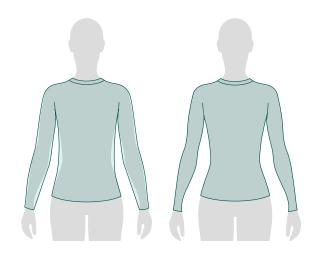

MEN'S

ACTIVE/ ATHLETIC FIT

Our trimmer, more athletic shirt fit is narrower through the body, shoulders, and sleeves and shorter in body length.

WOMEN'S

CLASSIC FIT

Our most universal shirt fit with shaping where needed for overall ease and comfort.

ACTIVE FIT

Our most contoured shirt fit shaped to comfortably fit the body, not tight or restricting.

/ BOTTOMS

CLASSIC FIT

Our most relaxed shirt fit

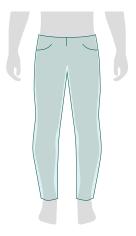

offers more ease through

the body, shoulders, and

sleeves and is longer in

body length.

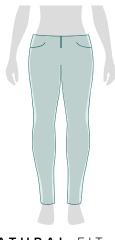

MEN'S

ACTIVE/ATHLETIC FIT

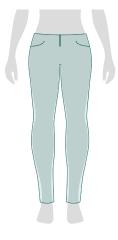

A modern, slimmer fit that sits lower on the waist and is slimmer through hips and thighs.

WOMEN'S

NATURAL FIT Semi-fitted with ease in

hip and thigh.

FITTED

Our closest fit is slim through hip and thigh.

DEALER GUIDE ICONS KEY

These items are offered in both men's and women's sizing and colorways with identical technology. The only differences between the two are design and fit.

These items are offered in one size option; however, the sizing options accommodate both men's and women's sizes.

EXTENDED SIZING

These items are offered in more sizing than most items in the Orvis line. In men's, this often means the item is offered in small and/or XXXL sizing. In women's, this means that our bottoms are offered up to size 20.

The Insect Shield® process binds a proprietary permethrin formula tightly to fabric fibers resulting in effective, odorless insect protection that lasts the expected lifetime of apparel.

Permethrin has been successfully used in the United States as an Environmental Protection Agency (EPA) registered product since 1977 with an excellent safety record. It is used in lice shampoos for children, flea dips for dogs, and various other products, some of which are regulated by the FDA.

UPF 30 blocks approximately 96%-97.4% of

UPF 40 & UPF 50+ offer excellent sun protection, blocking 97.5%-98% of UV rays.

These items are capable of accepting embroidery for custom shop or guide service personalization.

Sweat is natural and odorless but mixed with textiles it creates a moist and warm environment which is ideal for odor-causing bacteria to multiply and grow. Polygiene prevents the growth of odor-causing bacteria and fungi at the source and keeps clothes fresh and odor free for extended wear.
