

ORVIS RECON

MAPS NOT INCLUDED.

Recon® is designed for the anglers who chase blue lines on topo maps and spend their nights bent over maps, plotting the next day's adventures. For anglers who would rather spend the day in the front of a skiff than behind a desk, we've created a rod ready to work as hard as you do in the pursuit of fish.

Recon teams high-performance feel with lightness in hand. With close-in loading ability and the power for longer reach, it's proudly made in the USA by people who love fishing as much as you do.

 MADE IN AMERICA

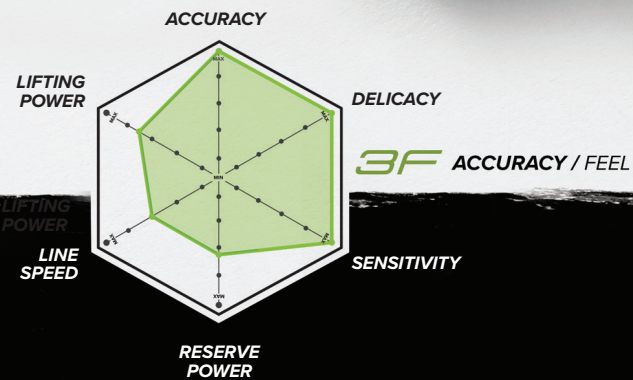

ORVIS®

Superfine

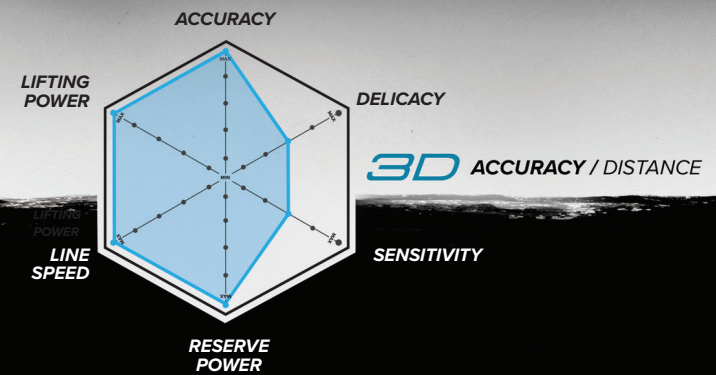

FEEL EVERYTHING.

As fly rod technology progressed over recent years, rods became stiffer and faster, but there are times when it's beneficial to go slow, to feel the cast evolve. The Full-Flex profile is inherent in bamboo rods by the very nature of the material. Superfine® rods emulate that feel and continue the Full-Flex tradition of a rod that reaches down into your hand and tells you the precise moment to present your cast. With a tradition of precise presentation, of dropping a fly on the water with the grace of a natural, these rods will help you appreciate the rhythms found within fly fishing. Get ready to change the way you feel.

 MADE IN AMERICA

3F **MADE IN AMERICA**
IS ACCURACY WITH FEEL,
a dry-fly angler's dream with the ability to drop an Adams in a teacup or put a Charlie on a tailing bonefish's nose at 40 feet.

3D **MADE IN AMERICA**
IS ACCURACY AT DISTANCE,
with the power for pinpoint delivery of a streamer to a distant cut bank or the perfect lead in the wind to a cruising redfish at 60 plus feet.

NEW

ORVIS

CLEARWATER

Innovation for Everyone

The new Clearwater® Rod Series is not just a cosmetic facelift, but a complete overhaul from the ground up by our Vermont rod designers. It's still the best fly rod you can buy for the money, but with a significant upgrade in performance and looks in a comprehensive series that covers every angler from small stream addicts to Skagit slinging two-handers. Each rod was designed with a purpose-built profile and action from medium-action small stream rods to medium-fast freshwater rods and fast-action big game rods. The new Clearwater Rod Series offers 27 models including 10 freshwater, 9 big game, and 8 two-handed rods (including two 5-piece rods). The blanks are black chrome with white accents and the quick rod identifier is dark silver. Chrome snake and stripping guide with a ceramic insert, and full black nickel aluminum reel seats. Fighting butts have composite tips and two-handed rods have composite on the tip of the foregrip.

Comes with gray rod tube. Designed in Vermont.
