

# Orvis Waders 200:

## ORVIS WADERS 2008

### Three great new waders for 2008: Pro Guide 3, Silver Label Bootfoot, and Endura Bootfoot

Two belt loop tracks for a custom fit

*"I've spent hundreds of hours testing wading products for Orvis. The new rear seam design on the Pro Guide 3 is definitely the most comfortable and durable seam system yet. The articulated legs and fitted feet allowed for many 8- to 10-hour days on the stream in all types of conditions. Whether I was climbing in and out of gorges with steep banks or crawling through streamside brush, the double-weave condenser fabric held up extremely well. When walk and wade fishing is your living, you need a dependable wader like the Pro Guide 3."*

— Ben Turpin,  
Orvis-Endorsed Guide,  
Northeast Pennsylvania

seams at the rear of the leg—instead of the inside of leg—eliminate abrasion when walking

## Orvis Waders

The best features, sizing and value

### More Sizes for a Better Fit.

Incorporating extensive fit and field research and the widest range of sizes available means that Orvis has a wader that fits you perfectly. This is the most comprehensive selection of waders available. Besides being more comfortable, a better-fitting wader prolongs wader life by minimizing abrasion and reducing water resistance so wading takes less effort. We guarantee that you'll find a wader that fits your performance needs, your budget and your size.

### No Sweat Breathability.

Orvis revolutionized the breathable wader with the No Sweat® fabric system. No Sweat waders keep you cool and dry by allowing vapor generated by activity to escape through the wader fabric, both above and below the waterline.

polyester microfiber  
breathable microporous  
polyurethane coating  
breathable membrane  
nylon tricot knit

**NO SWEAT®**  
Four Layers

### Extensive Field Testing.

Every Orvis wader model is extensively tested for comfort and performance by a staff of dedicated field testers and guides who spend hundreds of hours a year on the water.

### 100% Guaranteed.

If your waders fail due to a manufacturing or materials defect, Orvis will repair or replace them at our discretion, free of charge. This guarantee does not cover abuse, improper care, accidents, or the normal breakdown of materials over time. All defective or damaged waders should be returned to Orvis for evaluation, or call Orvis direct at 800-548-9548. Bootfoot waders are not covered by the guarantee, but can be repaired for a \$30 fee. For detailed wader care and repair instructions, return location, or shipping instructions, visit [www.orvis.com/wadecare](http://www.orvis.com/wadecare).

For the man who knows exactly what he wants but isn't telling, the Orvis Gift Card can be redeemed at our stores, at [www.orvis.com](http://www.orvis.com) or on phone orders. The wallet-size card comes beautifully presented in an Orvis gift box with tissue, ribbon and our latest catalog. Order item J0100. Or order an Electronic Gift Certificate for same-day delivery via e-mail at [www.orvis.com/certificate](http://www.orvis.com/certificate).

### Pro Guide 3

**NEW** More comfort and durability than ever. Seams at rear of legs save wear and tear. All-new, lighter, stronger, and more puncture-resistant fabric. 100% waterproof stretch uppers for a better fit. **\$349**

*"When wade fishing is your living you need a dependable wader like Pro Guide 3."* — Ben Turpin, Orvis-Endorsed guide

### Tailwaters XT

The most comfortable and versatile wader made. Stockingfoot **\$298**  
Exclusive integrated bootfoot **\$379**

*"All I had to do was step in them, and I knew I had found a pair of waders for life."* — M. Kotcher, Orvis.com customer

### Silver Label

**NEW** The best-performance wading value. XT Bootfoot offers lightweight and durable integrated wading boots. All come with new rear leg seams, interior storage chest pouch, and attached gravel guards. Stockingfoot **\$189**  
Bootfoot starting at **\$298**

*"Silver Label XTs are my go-to waders. Lightweight comfort meets high performance. Outstanding."* — Mike Quartararo, Orvis DMM

### Clearwater Endura™

**NEW** Bootfoot models in our best-price combination of durability and breathability available. Shown with Clearwater® Wading Shoes. Stockingfoot **\$129**  
Bootfoot **\$198**

*"First pair of waders I've ever owned that fits!"* — K. Marton, Orvis.com customer

New Pro Guide 3 Waders

More comfortable and durable than ever  
Now with new rear leg seams

- 1 New exclusive double weave condenier fabric—lighter but tougher and more comfortable and abrasion-resistant than ever
- 2 New seams relocated from inner thigh to the back of the legs for longer life, far greater abrasion-resistance, and comfort
- 3 Special stretch fabric upper panel for easy casting movement and comfort
- 4 External chest hand-warmer pocket features fleece-lined handwarmers behind a zip-close mesh pocket
- 5 Internal flip-out zip security pocket stores wallet and keys safely
- 6 Easy conversion to a waist wader—remove suspenders and fold upper into waist
- 7 Dual wader-belt tunnels, dual elastic chest-high draw cords, and adjustable suspenders for custom fit
- 8 Double layers of fabric from thighs to feet for extra durability
- 9 Articulated knee for ease of movement and a trim, nonbaggy fit.
- 10 Attached gravel guards never get lost or separated; rubberized strips inside prevent ride-up
- 11 Anatomically sculpted Hypalon® left and right booties for more comfort

A. PRO GUIDE 3 WADERS

**NEW** New and improved for more comfort and durability than ever. We moved the seams at the inside of the legs to the back of the leg to save wear and tear that comes from the wader legs rubbing together. This means your waders last, and you stay drier, longer. Our all-new exclusive double-weave condenier fabric is also far lighter and stronger than the original Pro Guide 2, so it wears more comfortably while it resists punctures better than ever. We added the same lightweight, 100% waterproof stretch material in our Tailwater XT uppers to the top for a better fit. The top easily folds down inside your waders for more comfort when you're fishing on hot days, from a driftboat, or when wading shallower water. Imported. **J861K | \$349**

XXL	50-52	36-38	12-13	6'2"-6'5"	220-260

1 An all-new waterproof, breathable version of No Sweat® fabric is made with a special double-weave condenier polyester microfiber outer shell for superior durability. The No Sweat fabric is double-layered from thighs to feet for maximum abrasion-resistance.

- A New double-weave condenier polyester microfiber outer shell
- B breathable microporous polyurethane coating
- C breathable membrane
- D nylon tricot knit

### Lightweight

Elastic, hook-and-loop detachable and adjustable suspenders are so light you hardly know you're wearing them. Easily removed to convert to a waist-high wader.

### Patented

Conversion system includes a built-in four-way stretch fabric upper that is waterproof, breathable, very light, and not bulky—it folds easily, comfortably, and inconspicuously into the waist when the conditions call for a cool, comfortable waist-high wader.

### Four-Layer Body Fabric

is waterproof, breathable No Sweat® fabric. The face fabric is brushed for softness and stealth.

### Five-Layer Seat and Lower Front Leg

The highest-wear areas are the most puncture resistant. The single fabric panel on the seat and lower leg includes two layers of tightly woven polyester microfiber.

### Articulated

knee area improves mobility and fit. By shaping the knee area for movement, the wader fits closer to the body for an athletic fit.

### Attached Wading Shoe or Traditional Stockingfoot

### Bootfoot: Attached Wading Shoe

is built into the stockingfoot wader. You get the support of a wading shoe, the fit of a stockingfoot, and the convenience of a bootfoot, all in one integrated system. And all for one price. You actually pay less for the system than if you were to buy a comparable wading boot and waders.

available in studded felt sole

## Tailwaters XT

The most comfortable high-performance wader. Stockingfoot or Bootfoot.

Don't compromise performance for comfort. With five-layer fabric reinforcements in key areas and a four-way waterproof, breathable stretch upper so comfortable you'll forget it's there, the Tailwaters XT™ is the ideal combination of comfort and performance.

### The Fit

Tailwaters XT Sizes

## Stockingfoot:

Anatomically shaped for comfort

Anatomically sculpted left and right booties provide the perfect fit—no bunching that can be uncomfortable and shorten the life of your wader. Attached gravel guards.

New Silver Label Bootfoot Waders

The best value wader, now upgraded

A NEW Silver Label XT Bootfoot

New Silver Label Bootfoot Features and Benefits

- 1 Bootfoot felt or lug sole versions
- 2 New integrated XT bootfoot, lightweight with hiking boot support
- 3 Attached mesh lace guard on bootfoot, shown in "up" position below, and "down" at lower left
- 4 Converts to a waist wader—opposing suspender buckles serve as a belt.
- 5 No more inseam stitching—seams moved to back of leg prevent abrasion and increase mobility, comfort and durability

Fabric Four-layer waterproof, breathable No Sweat®

A. SILVER LABEL XT BOOTFOOT

**NEW** Extremely lightweight yet durable integrated wading boots give our new and improved Silver Label waders a whole new edge in comfort and convenience. Just slip the waders on, and you're ready to go. No need for separate wading boots. The durable and comfortable boots give great ankle support and traction, and the wide laces cinch down tight and stay put. We've also moved the seams at the inner legs to the back of the leg to eliminate any wear and tear from rubbing. Our popular 4-layer, No Sweat fabric system with its soft-brushed outer polyester face fabric, gives added puncture and abrasion protection with double-reinforced knees and lower legs. New adjustable suspenders have "reversing" buckles to double as a belt when you wear waders as waist-highs. Great for fishing in low water, on hot days, or from a driftboat. The adjustable belt sports an elastic panel to stretch slightly for added comfort. Mesh lace guards keep laces out of the way. Repair kit included. Comes in a handy nylon stuff sack with mesh panels for ventilation. In silver sage. Imported. See size chart on opposite page.

J58T9 | felt sole | \$298  
J840H | lug sole | \$329

B. SILVER LABEL 2® BREATHABLE STOCKINGFOOT WADERS FOR MEN AND WOMEN

The best-performance wading value on the market, bar none. Elastic drawstring and inside storage pouch at the chest for fly box or gadgets. See size chart below.

- J60LO-01 | men's tan stockingfoot | \$189
- J60LO-21 | men's dark olive stockingfoot | \$189
- J60L6-21 | women's dark olive stockingfoot | \$189
- J60L7 | women's felt-sole dark olive bootfoot | \$229

Stockingfoot Features and Benefits

- 1 Converts to a waist wader—opposing suspender buckles
- 2 Attached neoprene gravel guards
- 3 Anatomically shaped left and right booties fit the natural shape of your foot for comfort

Fabric Four-layer waterproof, breathable No Sweat®

For any need—available in new bootfoot, plus stockingfoot, waist-high, and hipsters

C. SILVER LABEL 2 WAIST HIGH STOCKINGFOOT

Perfect for most wading situations like summer wading and driftboat use. Less bulky to pack than a chest wader. Same construction elements as the stockingfoot waders. Adjustable nylon belt threads through belt loops. In dark olive. Imported. See size chart below. J69EC | \$179

D. SILVER LABEL 2 HIPPERS IN STOCKINGFOOT OR BOOTFOOT MODELS

Same fabric as full waders. Two adjustment straps—one to cinch to the upper leg, the other to secure to your belt and to adjust height—with quick-release buckles. Stockingfoot booties are high-density neoprene. Bootfoot model features same fabric and boot as the full bootfoot wader. Imported.

J60L4 | stockingfoot sizes: S(5-7), M(8-10), L(9-11), XL(10-12), XXL(12-14) | \$98

J60L5 | bootfoot whole sizes: 5-14 | \$149

## Clearwater Endura: \$129

### New bootfoot model

#### A. CLEARWATER ENDURA™ BREATHABLE STOCKINGFOOT AND BOOTFOOT WADERS

Now in a new bootfoot model to save you time spent gearing up to get on the water. The comfortable neoprene-lined boot features a raised and vented removable insole to circulate air and give comfort with every step. Built around a new four-layer fabric system with a 5th layer of polyester microfiber reinforcing the knees to give added protection where a wader takes most of its abuse. The main four-layer fabric is of a tightly woven, polyester face fabric coated with a layer of breathable polyurethane, with a breathable membrane and a nylon tricot backing to handle all you dish out when fishing. A full-time wader for all levels, built to last, unlike similarly priced waders. Adjustable suspenders with opposing buckles easily convert the wader to waist high. Stockingfoot in high-density neoprene booties. Wade safety belt included in both models. In tan. Imported.

# Orvis Waders 2009

## The best features, sizing, and value

### More Sizes for a Better Fit.

Incorporating extensive fit and field research and the widest range of sizes available means that Orvis has a wader that fits you perfectly. This is the most comprehensive selection of waders available. Besides being more comfortable, a better-fitting wader prolongs wader life by minimizing abrasion and reducing water resistance so wading takes less effort. We guarantee that you'll find a wader that fits your performance needs, your budget, and your size.

### No Sweat Breathability.

Orvis revolutionized the breathable wader with the No Sweat<sup>®</sup> fabric system. No Sweat waders keep you cool and dry by allowing vapor generated by activity to escape through the wader fabric, both above, and below the waterline.

### Extensive Field Testing.

Every Orvis wader model is extensively tested for comfort and performance by a staff of dedicated field testers and guides who spend hundreds of hours a year on the water.

### 100% Guaranteed.

If your waders fail due to a manufacturing or materials defect, Orvis will repair or replace them at our discretion, free of charge.

This guarantee does not cover abuse, improper care, accidents, or the normal breakdown of materials over time. All defective or damaged waders should be returned to Orvis for evaluation, or call Orvis direct at 800-548-9548. For detailed wader care and repair instructions, return location, or shipping instructions, visit [www.orvis.com/wadercare](http://www.orvis.com/wadercare).

### Pro Guide 3

More comfort and durability than ever. Seams at rear of legs save wear and tear. All-new, lighter, stronger, and more puncture-resistant fabric. 100% waterproof stretch uppers for a better fit. **\$349**

### Tailwaters XT

The most comfortable and versatile wader made. stockingfoot **\$329**  
exclusive integrated bootfoot **\$379**

### Silver Label

The best-performance wading value. XT Bootfoot offers lightweight and durable integrated wading boots. All come with new rear leg seams, interior storage chest pouch, and attached gravel guards.

**NEW** stockingfoot **\$229**  
bootfoot starting at **\$229**

### Endura™

Bootfoot and stockingfoot in our best-priced combination of durability and breathability available.

**NEW** stockingfoot **\$149**  
bootfoot **\$198**

## Pro Guide 3

More comfortable and durable than

An all-new waterproof, breathable version of No Sweat® fabric is made with a special double-weave condenser polyester microfiber outer shell for superior durability. The No Sweat fabric is double-layered from thighs to feet for maximum abrasion resistance.

- A** New double-weave condenser polyester microfiber outer shell
- B** breathable microporous polyurethane coating
- C** breathable membrane
- D** nylon tricot knit

### A. PRO GUIDE 3 WADERS

More comfort and durability than ever. We moved the seams at the inside of the legs to the back of the leg to save wear and tear that comes from the wader legs rubbing together. This means your waders last, and you stay drier, longer. Our all-new exclusive double-weave condenser fabric is also stronger than the original Pro Guide 2, so it wears more comfortably while it resists punctures better than ever. We added the same lightweight, 100% waterproof stretch material in our Tailwaters™ XT uppers to the top for a better fit. The top easily folds down inside your waders for more comfort when you're fishing on hot days, from a driftboat, or when wading shallower water. Imported. **KM861K | \$349**

*"I've worn Pro Guide 3 waders from the Salt River in Wyoming to the rivers of New York. I've worn them in the cold and snow, working and guiding from a driftboat, wade fishing, and pushing through thickets and briars. Not a single leak. On top of being so tough, they're also super comfortable."*

– Dave Barbor, Orvis-Endorsed Guide

## Lightweight

Elastic, hook-and-loop detachable and adjustable suspenders are so light you hardly know you're wearing them. Easily removed to convert to a waist-high wader.

## Patented

Conversion system includes a built-in four-way stretch fabric upper that is waterproof, breathable, very light, and not bulky—it folds easily, comfortably, and inconspicuously into the waist when the conditions call for a cool, comfortable waist-high wader.

## Four-layer body fabric

is waterproof, breathable No Sweat® fabric. The face fabric is brushed for softness and stealth.

## Five-layer seat and lower front leg

The highest-wear areas are the most puncture resistant. The single fabric panel on the seat and lower leg includes two layers of tightly woven polyester microfiber.

# Tailwaters XT

## The most comfortable high-performance wader. Stockingfoot or Bootfoot.

Don't compromise performance for comfort. With five-layer fabric reinforcements in key areas and a four-way waterproof, and a four-way stretch upper so breathable you'll forget it's comfortable you'll forget it's there, the Tailwaters XT™ is the ideal combination of comfort and performance.

## The Fit

## Bootfoot:

Attached

Wading Shoe

is built into the stockingfoot wader. You get the support of a wading shoe, the fit of a stockingfoot, and the convenience of a bootfoot, all in one integrated system. And all for one price. You actually pay less for the system than if you were to buy a comparable wading boot and waders.

## Stockingfoot:

Anatomically shaped for comfort

Anatomically sculpted left and right booties provide the perfect fit—no bunching that can be uncomfortable and shorten the life of your wader. Attached gravel guards.

available in studded felt sole

## All-new fit. Far more comfort

### A. NEW SILVER LABEL STOCKINGFOOT WADERS

**NEW** Completely updated, top-to-bottom, for more comfort and harder fishing. A second layer of our No Sweat® fabric added from the knees down and inner-leg seams relocated to the rear of the leg reduce wear and tear at key abrasion points for longer life. A new 2-way stretch, lightweight, waterproof upper and side panel fabric moves and breathes better than other waders for more comfort. Plus, the upper tucks down neatly and quickly inside the bottom of the wader; great for hot days, low water, and drift-boat fishing. A laser-cut, waterproof pocket, with a vertical zipper for quick access, keeps your camera and other gear dry. The new lightweight “Y” suspenders quickly adjust for a custom fit, and the belt’s slim profile is more comfortable than other belts. Attached neoprene gravel guards. Sculpted neoprene booties for a closer more comfortable fit. In silver sage, tan. Women’s in silver sage only.

## Ultra-Light...The lightest with full support and protection.

### B. ULTRA-LIGHT WADING SHOE

Just 38 oz. a pair in size 10, yet the Ultra-Light provides comfortable full support and protection unlike any other travel wading shoe. You get the same comfortable fit profile as the Henry’s Fork, constructed from quick-drying, tough nylon and synthetic Nubuck durable enough for everyday use. A natural rubber protective layer over the toe withstands wear. Speed-lace eyelets with one-pull top locking mechanism keeps laces locked and boots snug all day. Saves the time and hassle of re-lacing while you fish. In gray. Men’s whole sizes 7-13. Women’s whole sizes 6-11. If you are a half size, or prefer heavier socks, order the next larger size. 38 oz. in size 10. Imported.

## Silver Label Bootfoot

### The best-value bootfoot wader. Maximum

**No more inseam stitching**  
seams moved to back of leg prevent abrasion and increase mobility, comfort and durability

**Attached mesh lace guard**

**New integrated bootfoot**, lightweight with hiking boot support

#### A. SILVER LABEL BOOTFOOT

Extremely lightweight yet durable integrated wading boots give our new and improved Silver Label waders a whole new edge in comfort and convenience. Just slip the waders on, and you're ready to go. No need for separate wading boots. The durable and comfortable boots give great ankle support and traction, and the wide laces cinch down tight and stay put. We've also moved the seams to the back of the leg to eliminate any wear and tear from rubbing. Our popular 4-layer, No Sweat fabric system with its soft-brushed outer polyester face fabric, gives added puncture and abrasion protection with double-reinforced knees and lower legs. New adjustable suspenders have "reversing" buckles to double as a belt when you wear waders as waist-highs. Great for fishing in low water, on hot days, or from a driftboat. The adjustable belt sports an elastic panel to stretch slightly for added comfort. Mesh lace guards keep laces out of the way. Repair kit included. Comes in a handy nylon stuff sack with mesh panels for ventilation. In silver sage. Imported. See size chart below.

comfort and convenience.

**Converts to a waist wader**  
opposing suspender buckles serve as a belt

### B. SILVER LABEL 2 HIPERS IN STOCKINGFOOT OR BOOTFOOT MODELS

Same fabric as full waders. Two adjustment straps—one to cinch to the upper leg, the other to secure to your belt and to adjust height—with quick-release buckles. Stockingfoot booties are high-density neoprene. Bootfoot model features same fabric and boot as the full bootfoot wader. In dark olive. Imported.

**KM60L4** | stockingfoot sizes: S(5-7), M(8-10), L(9-11), XL(10-12), XXL(12-14) | **\$149**

**KM60L5** | bootfoot whole sizes: 5-14 | **\$179**

### C. SILVER LABEL 2 WAIST HIGH STOCKINGFOOT

Perfect for most wading situations like summer wading and driftboat use. Less bulky to pack than a chest wader. Same construction elements as the stockingfoot waders. Adjustable nylon belt threads through belt loops. Sizes S(5-7), M(8-10), L(9-11), XL(10-12), XXL(12-14). In dark olive. Imported.

**KM69EC** | **\$198**

## Wading Accessories

### D. ADJUSTABLE WADER BELT

Indestructible polypropylene/polyester blend web with a rugged polycarbonate buckle. Buckle closes securely and releases with the firm pull of the tag end. One size fits all. In black. USA.

**KM97RX** | **\$7.95**

### E. INFINITY GRAVEL GUARDS

One size fits all. Full-length hook-and-loop closure provides infinite adjustment for maximum protection against wader-damaging sand and gravel. Special nylon lace hook will not detach while wading. Imported.

**KM317T** | **\$29**

# Endura Bootfoot

## B. ENDURA™ BREATHABLE BOOTFOOT WADERS

The comfortable neoprene-lined boot features a raised and vented removable insole to circulate air and give comfort with every step. Plus, a felt sole for solid, safe traction. Built around a new four-layer fabric system with a 5th layer of polyester microfiber reinforcing the knees to give added protection where a wader takes most of its abuse. The main four-layer fabric is of a tightly woven, polyester face fabric coated with a layer of breathable polyurethane, with a breathable membrane and a nylon tricot backing to handle all you dish out when fishing. A full-time wader for all levels, built to last, unlike similarly priced waders. Adjustable suspenders with opposing buckles easily convert the wader to waist high. Stockingfoot in high-density neoprene booties. Wade safety belt included in both models. In tan. Imported.

# Orvis Waders 2010

# ORVIS WADERS 2010

## Orvis waders at a glance

### More Sizes for a Better Fit.

Incorporating extensive fit and field research and the widest range of sizes available means that Orvis has a wader that fits you perfectly. This is the most comprehensive selection of waders available. Besides being more comfortable, a better-fitting wader prolongs wader life by minimizing abrasion and reducing water resistance so wading takes less effort. We guarantee that you'll find a wader that fits your performance needs, your budget, and your size.

### No Sweat Breathability.

Orvis revolutionized the breathable wader with the No Sweat™ fabric system.

No Sweat waders keep you cool and dry by allowing vapor generated by activity to escape through the wader fabric, both above and below the waterline.

### Extensive Field Testing.

Every Orvis wader model is extensively tested for comfort and performance by a staff of dedicated field testers and guides who spend hundreds of hours a year on the water.

### 100% Guaranteed.

If your waders fail due to a manufacturing or materials defect, Orvis will repair or replace them at our discretion, free of charge.

This guarantee does not cover abuse, improper care, accidents, or the normal breakdown of materials over time. All defective or damaged waders should be returned to Orvis for evaluation, or call Orvis direct at 800-548-9548. For detailed wader care and repair instructions, return location, or shipping instructions, visit [orvis.com/wadercare](http://orvis.com/wadercare).

### Inspect, Clean, Dry your Gear.

See page 68 for details on stopping *Didymosphenia geminata* also known as "rock snot" and other invasive species.

## A. PRO GUIDE WADERS

**NEW** Get more comfort and maximum durability in our new and improved Pro Guide waders. An exclusive double-weave condenser fabric is lighter and stronger than original Pro Guides, so it wears more comfortably, with more mobility, without sacrificing durability. Plus, the new, lightweight, 100% waterproof upper stretch fabric gives you greater agility and a better fit. All while a new 5-layer fabric in lower leg increases abrasion and puncture resistance. Rear leg seams save wear and tear from legs rubbing together. Removable suspenders let them fold down easily for more comfort when you're fishing on hot days, from a boat or when wading shallow water. Neoprene gravel guards help seal out debris and aquatic invasives. Front handwarmer pocket with zippered mesh pocket. Wading belt included. In khaki. Imported. **KM2A90 | \$349**

*"The new Pro Guide Waders are, in a word, fantastic! From the toe to the top of the waders, the Pro Guides have a perfectly functional design and superior fit. For example, the reinforced material in the lower portion of the waders and through the legs and knees allows me to wade and hike aggressively without thinking about tearing a leak in them. The comfortable fit makes the Pro Guides incredibly comfortable to wear all day. They have great pockets for fly boxes and just the right pocket to warm my hands. The Pro Guides are fantastic and are my new 'go-to' waders."*

— **Jim Hickey**, 2009 Orvis-Endorsed Guide of the Year, WorldCast Anglers worldcastanglers.com

**fit. More comfort. \$249**

**new 2-way stretch, lightweight, upper and side panel adds more comfort • rear leg seams reduce abrasion • sculpted booties for a more comfortable fit in wader boots**

## A. SILVER LABEL STOCKINGFOOT WADERS

Fish hard and stay dry in great comfort. A second layer of our No Sweat™ fabric added from the knees down and inner-leg seams relocated to the rear of the leg reduce wear and tear at key abrasion points for longer life. A 2-way stretch, lightweight, waterproof upper and side panel fabric moves and breathes better than other waders for more comfort. Plus, the upper tucks down neatly and quickly inside the bottom of the wader; great for hot days, low water, and driftboat fishing. A laser-cut, waterproof pocket, with a vertical zipper for quick access, keeps your camera and other gear dry. The new lightweight “Y” suspenders quickly adjust for a custom fit, and the belt’s slim profile is more comfortable than other belts. Attached neoprene gravel guards. Sculpted neoprene booties for a closer more comfortable fit. In silver sage. Imported.

## Endura Bootfoot

### B. ENDURA™ BREATHABLE BOOTFOOT WADERS

The comfortable neoprene-lined boot features a raised and vented removable insole to circulate air and give comfort with every step. Plus, a felt sole for solid, safe traction. Built around a new four-layer fabric system with a 5th layer of polyester microfiber reinforcing the knees to give added protection where a wader takes most of its abuse. A full-time wader for all levels, built to last, unlike similarly priced waders. Adjustable suspenders with opposing buckles easily convert the wader to waist high. Wader safety belt included. In tan. Imported.

## Pack & Travel Waders & Wading Pants

**SonicSeam technology starting at \$198.**

**Our lightest-weight waders pack down and hold up.**

*I have over 200 days on the the new Orvis Packable SonicSeam waders, and I am still dry. They're so light, I stuffed them in my backpack one day and forgot them. I took 8 or 9 trips with them in the pack and didn't even remember they were there until I needed them again. They are great for packing on fly-in trips, because they keep you under the weight limit. I used them on several hike-in trips and they held up great. If you need a new pair of lightweight waders, the Orvis SonicSeam packable waders come highly recommended.*

– Chris Taylor, Fisheads San Juan River Lodge

### A. PACK & TRAVEL WADERS AND WADER PANTS WITH SONICSEAM® TECHNOLOGY

At just 2 lbs. 6 oz. in size large, Pack & Travel waders pack down, pack in, and provide great comfort—the perfect waders for backcountry fishing, travel, warm-weather, and low-water fishing. The wader pants are even better for hot weather and low water conditions. The waders are 30% lighter than Pro Guide waders. Both models are super lightweight, flexible, and comfortable, yet rugged; and pack down to save space and weight for long trips and floatplane weight limits. A groundbreaking, patented, and exclusive sonic-welded seam technology eliminates threads that can wear out and stitch holes that, over time, can eventually leak. Leg seams run up the back of the wader to further reduce abrasion. A special three-layer breathable, waterproof fabric keeps you dry and comfortable. Detachable suspenders on the chest waders make for easy quick conversion to waist-high waders in a pinch. Both come with an easy-snap, adjustable belt. In overcast. Outer shell: 100% nylon. Imported.

ORVIS WADERS 2011

# Silver Label 3. Three choices: Boot

Silver Label 3 Classic bootfoot  
with EcoTraX soles

Silver Label 3 Classic stockingfoot

Silver Label 3  
Roll-down with  
stretch upper

# ORVIS WADERS 2011

## foot, Classic Stockingfoot, or Roll-down.

### A. RIVER GUARD® SILVER LABEL BOGS BOOTFOOT WADERS WITH ECOTRAX SOLES

The same great fabric and fit as our current generation of Silver Label 3® waders in a new Bogs bootfoot version. We worked with the leading boot company to create an innovative integrated boot, with ankle-fit construction and a 5mm neoprene liner, to give you the utmost in stability, comfort, warmth, and durability. The boot sports our exclusive EcoTraX® sole, with pre-installed PosiGrip™ Screw-In Studs to help mitigate the spread of aquatic invasive species and give you superior traction. The lower leg features a second layer of our No-Sweat™ fabric and rear leg seams to improve abrasion resistance and reduce wear and tear at key points for longer life. Adjustable suspenders with opposing, low-profile buckles easily convert to a waist-high wader. In silver sage. Imported. **KM2K12 | \$395**

boots come pre-installed with 20 PosiGrip Screw-In Studs, made with tungsten-carbide tips for maximum traction

### B. SILVER LABEL CLASSIC WADER

This is the wader that started the era of breathable waders, an Orvis exclusive and original. Fabric is our durable, yet soft-brushed microfiber polyester that is breathable and extremely comfortable. Knees are double-reinforced for puncture and abrasion protection. Booties are anatomically shaped for left foot/right foot comfort and are made of high density neoprene that offers complete resistance to abrasion and compression. Attached, neoprene gravel guards will never get lost. Adjustable suspenders have reversing buckles, which allow the suspender to serve as a belt when the wader is rolled down to a waist-high. Suspenders, adjustable wader belt and repair kit included. Comes in a handy stuff sack. In silver sage. Imported. **KM3C50 | \$198**

both stockingfoot models feature rear leg seams to reduce abrasion, and sculpted booties for a more comfortable fit in wader boots

### C. SILVER LABEL ROLL-DOWN STOCKINGFOOT WADERS

Completely updated, top-to-bottom, for more comfort and harder fishing. A new two-way stretch, lightweight, waterproof upper and side-panel fabric moves and breathes better than other waders for more comfort. Plus, the upper tucks down neatly and quickly inside the bottom of the wader; great for hot days, low water, and driftboat fishing. A second layer of our No Sweat™ fabric added from the knees down and inner-leg seams relocated to the rear of the leg reduce wear and tear at key abrasion points for longer life. A laser-cut, waterproof pocket, with a vertical zipper for quick access, keeps gear dry. The new lightweight “Y” suspenders quickly adjust for a custom fit, and the belt’s slim profile is more comfortable than other belts. Attached neoprene gravel guards. Sculpted neoprene booties for a closer, more comfortable fit. Imported.

## Endura waders & hippers for men & women. Tougher, more comfortable, and a better value at \$149.

### A. ENDURA BOOTFOOT AND STOCKINGFOOT HIPPER

**NEW** Lightweight, breathable, stockingfoot hippers, made from the same fabric as our Endura™ chest waders. The three-layer upper leg with five-layer lower give them added durability and puncture resistance. Back-seam construction eliminates potential inseam abrasion. The bootfoot model lets you get them on and off fast. Thinsulate™ lined for warmth. Two adjustment straps, with quick-release buckles, one to cinch the upper opening tighter to your leg and the other to secure the hip boot to your belt and adjust its height. In tan. Bootfoot whole sizes only, 7-14. Stockingfoot sizes S(7-9) M(8-10), L(9-11), XL(10-12), XXL(12-14). Imported.

### Bootfoot or Stockingfoot Models

felt sole boots for safe footing and traction

left- and right-foot sculpted booties

### B. ENDURA BREATHABLE BOOTFOOT WADERS

The comfortable neoprene-lined boot features a raised and vented removable insole to circulate air and give comfort with every step. Plus, a felt sole for solid, safe traction. Built around a new four-layer fabric system with a fifth layer of polyester microfiber reinforcing the knees to give added protection where a wader takes most of its abuse. The main four-layer fabric is of a tightly woven, polyester face fabric coated with a layer of breathable polyurethane, with a breathable membrane and a nylon Tricot backing to handle all you dish out when fishing. A full-time wader for all levels, built to last, unlike similarly priced waders. Adjustable suspenders with opposing buckles easily convert the wader to waist-high. Wader safety belt included. In tan. Imported.

**KM42EC** | men's bootfoot | **\$229**  
**KM2X72** | women's bootfoot | **\$229**

### C. ENDURA STOCKINGFOOT WADERS

Add a new three-layer upper and a five-layer lower for better abrasion resistance plus a back-seam construction to eliminate inseam abrasion and you have one tough, but comfortable, wader to hold up to hard fishing. Low-profile suspender buckles and belt buckle. Belt has stretch panel for added comfort. Three integrated belt loops to keep belt in place. Flip-out pocket to store keys, wallet, fishing license, etc. Sculpted neoprene booties for comfortable fit into boots. In tan. Imported.

## Pack & Travel Waders

**SonicSeam technology starting at \$198. Our lightest-weight waders pack down and hold up.**

a groundbreaking, patented, and exclusive sonic-welded seam technology eliminates threads that can wear out and stitch holes that, over time, can eventually leak

*"I have over 200 days on the new Orvis Packable SonicSeam waders, and I am still dry. They're so light, I stuffed them in my backpack one day and forgot them. I took 8 or 9 trips with them in the pack and didn't even remember they were there until I needed them again. They are great for packing on fly-in trips, because they keep you under the weight limit. I used them on several hike-in trips and they held up great. If you need a new pair of lightweight waders, the Orvis SonicSeam packable waders come highly recommended."*

—Chris Taylor, Fisheads San Juan River Lodge

### PACK & TRAVEL WADERS WITH SONICSEAM® TECHNOLOGY

At just 2 lbs., 6 oz. in size large, Pack & Travel waders pack down, pack in, and provide great comfort—the perfect waders for backcountry fishing, travel, warm weather, and low-water fishing. The wader pants are even better for hot weather and low water conditions. The waders are 30% lighter than Pro Guide waders. Both models are super lightweight, flexible, and comfortable, yet rugged; and pack down to save space and weight for long trips and floatplane weight limits. A groundbreaking, patented, and exclusive sonic-welded seam technology eliminates threads that can wear out and stitch holes that, over time, can eventually leak. Leg seams run up the back of the wader to further reduce abrasion. A special three-layer breathable, waterproof fabric keeps you dry and comfortable. Detachable suspenders on the chest waders make for easy quick conversion to waist-high waders in a pinch. Both come with an easy-snap, adjustable belt. In overcast. Outer shell: 100% nylon. Imported.

# Guide Waders

## Maximum durability and comfort for \$395.

### PRO GUIDE WADERS

Get more comfort and maximum durability in our new and improved Pro Guide™ waders. An exclusive double-weave condenser fabric is lighter and stronger than original Pro Guides, so it wears more comfortably, with more mobility, without sacrificing durability. Plus, the new lightweight, 100% waterproof upper stretch fabric gives you greater agility and a better fit. All while a new five-layer fabric in lower leg increases abrasion and puncture resistance. Rear leg seams save wear and tear from legs rubbing together. Removable suspenders let them fold down easily for more comfort when you're fishing on hot days, from a boat, or when wading shallow water. Neoprene gravel guards help seal out debris and aquatic invasives. Front handwarmer pocket with zippered mesh pocket. Wading belt included. In khaki. Imported.

### A. SILVER LABEL® CLASSIC WADERS

This is the wader that started the era of breathable waders, an Orvis exclusive and original. Fabric is our durable, yet soft-brushed microfiber polyester that is breathable and extremely comfortable. Knees are double-reinforced for puncture and abrasion protection. Booties are anatomically shaped for left-foot/right-foot comfort and are made of high-density neoprene that offers complete resistance to abrasion and compression. Attached, neoprene gravel guards will never get lost. Adjustable suspenders have reversing buckles, which allow the suspender to serve as a belt when the wader is rolled down to a waist-high. Suspenders, adjustable wader belt, and repair kit included. Comes in a handy stuff sack. In silver sage. Imported. **KM3C50 | \$225**

roll-down model turns into a waist wader with stretch top tucked down inside

roll-down model features new two-way stretch, lightweight upper and side panels to add more comfort

### B. SILVER LABEL ROLL-DOWN STOCKINGFOOT WADERS

Completely updated, top-to-bottom, for more comfort and harder fishing. A new two-way stretch, lightweight, waterproof upper and side-panel fabric moves and breathes better than other waders for more comfort. Plus, the upper tucks down neatly and quickly inside the bottom of the wader; great for hot days, low water, and driftboat fishing. A second layer of our No Sweat™ fabric added from the knees down and inner-leg seams relocated to the rear of the leg reduce wear and tear at key abrasion points for longer life. A laser-cut, waterproof pocket, with a vertical zipper for quick access, keeps gear dry. The new lightweight "Y" suspenders quickly adjust for a custom fit, and the belt's slim profile is more comfortable than other belts. Attached neoprene gravel guards. Sculpted neoprene booties for a closer, more comfortable fit. Imported.

# Orvis Waders 2015

# Hippers for men and women.

## and a great value at \$159.

### A. ENDURA™ STOCKINGFOOT WADERS

Add a new three-layer upper and a five-layer lower for better abrasion resistance plus a back-seam construction to eliminate inseam abrasion and you have one tough, but comfortable, wader to hold up to hard fishing. Low-profile suspender buckles and belt buckle. Belt has stretch panel for added comfort. Three integrated belt loops to keep belt in place. Flip-out pocket to store keys, wallet, fishing license, etc. Sculpted neoprene booties for comfortable fit into boots. In tan. Imported.

**KMOG2L** | men's | **\$159**

**KMOG2X** | women's | **\$159**

### B. ENDURA BREATHABLE BOOTFOOT WADERS

The comfortable neoprene-lined boot features a raised and vented removable insole to circulate air and give comfort with every step. Plus, a felt sole for solid, safe traction. Built around a three-layer fabric system with a fifth layer of polyester microfiber reinforcing the knees to give added protection where a wader takes most of its abuse. The main three-layer fabric is of a tightly woven, polyester face fabric coated with a layer of breathable polyurethane, with a breathable membrane and a nylon Tricot backing to handle all you dish out when fishing. A full-time wader for all levels, built to last, unlike similarly priced waders. Adjustable suspenders with opposing buckles easily convert the wader to waist-high. Wader safety belt included. In tan. Imported.

### C. ENDURA BOOTFOOT AND STOCKINGFOOT HIPPER

Lightweight, breathable, stockingfoot hipper, made from the same fabric as our Endura chest waders. The three-layer upper leg and five-layer lower give them added durability and puncture resistance. Back-seam construction eliminates potential inseam abrasion. The bootfoot model lets you get them on and off fast. Thinsulate® lined for warmth. Two adjustment straps, with quick-release buckles, one to cinch the upper opening tighter to your leg and the other to secure the hip boot to your belt and adjust its height. In tan. Bootfoot whole sizes only, 7-14. Stockingfoot sizes S(7-9) M(8-10), L(9-11), XL(10-12), XXL(12-14). Imported.

**KM2R7E** | bootfoot | **\$185**

**KM2H18** | stockingfoot | **\$139**

### D. RIVER GUARD ENDURA BOOTFOOT

**NEW** Using the same basic construction as our Endura felt sole bootfoot wader, we now offer a version with a studded, sticky rubber outsole to help reduce the spread of aquatic invasive species, while offering great traction. The upper is a rugged three-layer breathable fabric for comfort and durability while the lower leg is built using a five-layer system for maximum puncture and abrasion resistance. Adjustable suspenders have reversing buckles that serve as a belt when the wader is rolled down and used as a waist-high. A full-time wader for all levels and built for everyday use. Boots have a natural rubber exterior that offers great flexibility and performance. Sole insert is perforated to help air circulate around your foot, helping to keep it dry. Wader safety belt included. In tan. Imported.

# Guide Waders

Maximum durability and comfort for \$295.

## PRO GUIDE WADERS

Get **more** comfort and maximum durability in our revamped Pro Guide™ waders. An exclusive double-weave condenser fabric is lighter and stronger than original Pro Guides, so it wears more comfortably, with more mobility, without sacrificing durability. Plus, the new lightweight, 100% waterproof upper stretch fabric gives you greater agility and a better fit. All while a new five-layer fabric in the lower leg increases abrasion and puncture resistance.

Rear leg seams save wear-and-tear from legs rubbing together. Removable suspenders let them fold down easily for more comfort when you're fishing on hot days, from a boat, or when wading shallow water. Neoprene gravel guards help seal out debris and aquatic invasives. Front handwarmer pocket with zip mesh pocket. Wading belt included. In khaki. Imported.

## Pack & Travel Waders

**SonicSeam technology starting at \$198. Our lightest-weight waders pack down and hold up.**

a groundbreaking, patented, and exclusive sonic-welded seam technology eliminates threads that can wear out and stitch holes that, over time, can eventually leak

*"I have over 200 days on the new Orvis Packable SonicSeam waders, and I am still dry. They're so light, I stuffed them in my backpack one day and forgot them. I took 8 or 9 trips with them in the pack and didn't even remember they were there until I needed them again. They are great for packing on fly-in trips, because they keep you under the weight limit. I used them on several hike-in trips and they held up great. If you need a new pair of lightweight waders, the Orvis SonicSeam packable waders come highly recommended."*

—Chris Taylor, Fisheads San Juan River Lodge

### B. PACK & TRAVEL WADERS WITH SONICSEAM® TECHNOLOGY

At just 2 lbs., 6 oz. in size large, Pack & Travel waders pack down, pack in, and provide great comfort—the perfect waders for backcountry fishing, travel, warm weather, and low-water fishing. The wader pants are even better for hot weather and low-water conditions. The waders are 30% lighter than Pro Guide™ waders. Both models are super lightweight, flexible, and comfortable, yet rugged; and pack down to save space and weight for long trips and floatplane weight limits. A groundbreaking, patented, and exclusive sonic-welded seam technology eliminates threads that can wear out and stitch holes that, over time, can eventually leak. Leg seams run up the back of the wader to further reduce abrasion. A special three-layer breathable, waterproof fabric keeps you dry and comfortable. Detachable suspenders on the chest waders make for easy quick conversion to waist-high waders in a pinch. Both come with an easy-snap, adjustable belt. In overcast.

Outer shell: 100% nylon. Imported.

## SILVER SONIC CONVERTIBLE-TOP WADERS

**NEW** The most versatile waders on the market today. Fish dry, and know you'll stay that way. Featuring the patented Orvis SonicSeam® technology, all thread and stitch holes are eliminated and seams are double reinforced, prolonging the life of the waders dramatically. These are hard-wearing, everyday waders for the serious angler. Main wader is made of the same durable 4-layer nylon fabric as the Pack & Travel waders, while the upper is a lighter weight 4-layer nylon, the same fabric used in the Silver Label® Roll-downs. An innovative suspension system allows you to convert them to waist-highs without removing suspenders, a perfect feature for warm spring afternoons. Front zippered pocket is highly water resistant and an ideal storage place for fly boxes, while a flip-out interior waterproof pocket can hold cameras, cell phones, or fishing licenses. Attached gravel guards feature a quick-drain panel to keep you moving. Strategically placed lower leg seams run up the back of the wader, reducing abrasion. Easy adjusting wader belt included. In overcast/taupe. Outer shell: 100% nylon. Imported.

The life of a guide is one spent on the water. It's full of untangling knots, tying on flies, rowing drift boats, and working with customers from all walks of life. It's also one of the most rewarding adventures possible for those patient few who love the rivers and fish as much as, if not more than, anything else.

photo: Brian Grossenbacher

# NEW Silver Sonic Guide: Tougher than your last three pairs of waders. Combined.

## Silver Sonic Guide Waders

**NEW** The newest member of the Silver Sonic Wader family is also the toughest. Wear them. Abuse them. They'll keep coming back for more. Built for the demanding rigors of full-time fishing, the Silver Sonic Guide Waders are designed to keep you dry and last longer than your last three pairs of waders combined. Highly breathable and ultradurable, the Silver Sonic Guides are up to 300% more abrasion resistant and 40% more puncture resistant than the Silver Sonic Convertible Tops. The lower wader features a high-density four-layer breathable nylon, while the upper is the

same four-layer nylon used in the Convertible Top lowers. Kangaroo-style handwarmer pocket with YKK water-resistant zippers. External storage pocket with tool dock. Y-style padded yoke suspenders. Flip-out interior pocket and removable waterproof pocket. Attached self-fabric, reinforced gravel guards with quick-drain panel. Anatomically correct, sculpted neoprene booties. Strategically placed lower leg seams run up the back of the wader, reducing abrasion. Easy-adjusting wading belt included. In overcast/taupe. Expanded sizes, now including extra long. Outer shell: 100% nylon. Imported.
